

# **Power2Learn™** and **Power2Teach™**

---

## *User Agreement & Multimedia Instructions*

Lessons and learning resources are provided only and solely for the purpose of using **Power2™** programming in your school in 2009-2010 year for the purpose of **field testing**. They can be reproduced only for use within your school consistent with this purpose. By clicking the links and downloading the files, you explicitly agree that (a) you shall not use them for any other purpose than field testing of the **Power2™** programming, (b) you shall not sell, reproduce, or share these materials in any way, except in connection with the purpose specified herein, (c) you shall not edit or modify these materials, or use them either in whole or in part in derivative work of any kind.

To download the materials, click on the link below or copy it into your browser:

### Instructions for Viewing Multimedia Learning Resources

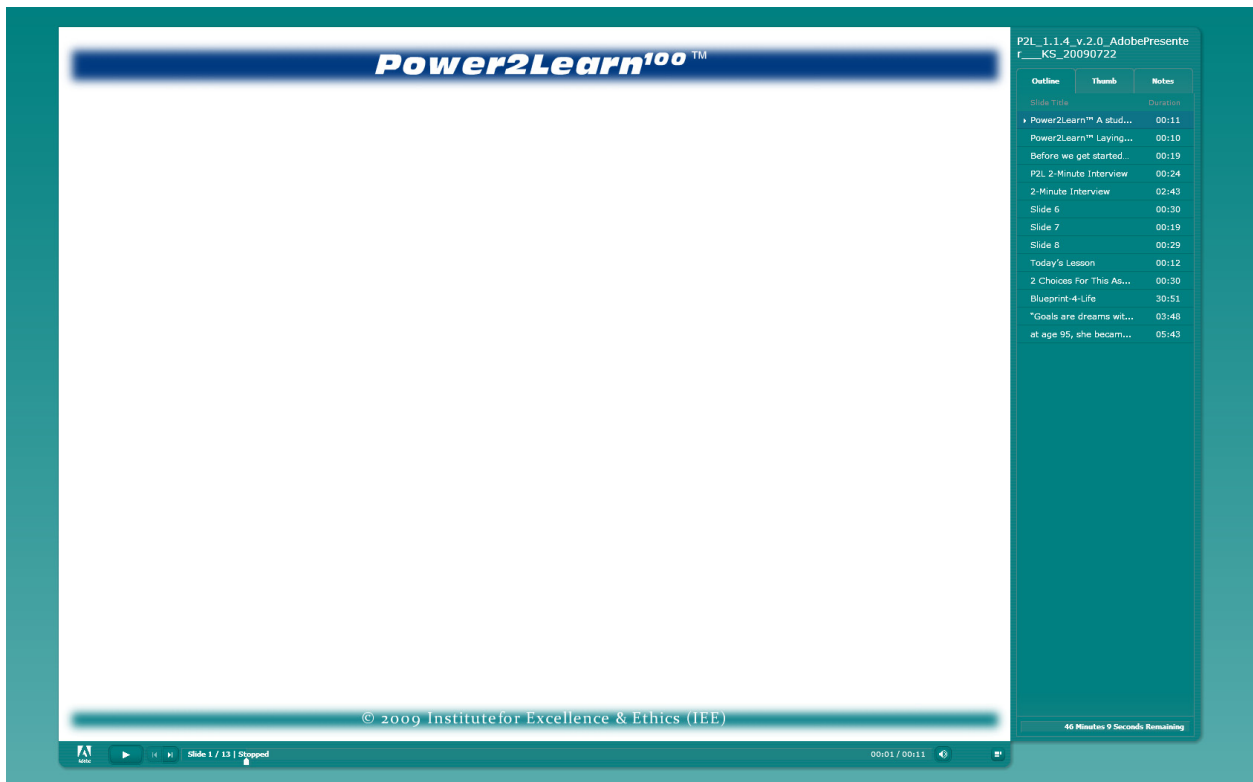

To view Multimedia Learning Resources for **Power2Learn™** and **Power2Teach™**, it is necessary to download and install free Adobe Reader 9.1 or higher by going to this url:

<http://get.adobe.com/reader/>

When you double-click a Multimedia Learning Resource pdf file, it will open and start playing automatically. Right-click on the presentation screen and select “Full Screen Multimedia” to get the full-screen view like that in the screen shot below. Note the Control Panel in the bottom right-hand corner of the screen that allows one to pause, resume play, advance forward or backward one slide, and adjust the volume of the presentation.

The bottom-right toggle button in the Control Panel changes the screen view from the one shown above to the one shown below (and back):

The latter view shows the duration of each slide and the present location at the bottom of the screen. It also provides additional navigation controls in the tabs on the right-hand side of the screen, allowing one to jump immediately to the needed slide or to see the Notes for each slide.

Please note that if there is another version (earlier than 9.0) of Adobe Acrobat Reader or Acrobat Professional installed as the default program, double-clicking the Multimedia Learning Resource file may not open it. Instead, one would need to right-click on the file name and choose “Open with Adobe Reader 9” option.

*Student Materials, Teacher Script,* and other learning resource files are regular (non-multimedia) pdf files and can be reproduced to provide sufficient number of copies to be used in the school in 2009-2010 school year. Please do not share these materials with individuals or organizations outside your school. Instead, advise them to contact IEE directly by email ([info@excellenceandethics.com](mailto:info@excellenceandethics.com)) or online ([www.excellenceandethics.com/](http://www.excellenceandethics.com/)).
